## Non-GAAP Financial Measures

In this presentation, certain non-GAAP financial measures may be used. Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measure may be found in the Appendix at the end of this presentation or in the earnings releases available on the Company's website. Additional information is available at www.trimascorp.com under the "Investors" section.

Please see the Appendix for details regarding certain costs, expenses and other amounts or charges, collectively described as "Special Items," that are included in the determination of net income, earnings per share and/or cash flows from operating activities under GAAP, but that management believes should be separately considered when evaluating the quality of the Company's core operating results, given they may not reflect the ongoing activities of the business. Management believes that presenting these non-GAAP financial measures, on an after Special Items basis, provides useful information to investors by helping them identify underlying trends in the Company's businesses and facilitating comparisons of performance with prior and future periods. These non-GAAP financial measures should be considered in addition to, and not as a replacement for or superior to, the comparable GAAP financial measures.

## External Factors

- Lamons' customers delaying fall turnaround activity into 2018 as they make up lost profits as a result of the hurricane
- Crude pricing has pushed resin costs beyond planned levels
- Northern California fires have resulted in idled production and disruption at one of our Packaging plants in the region
- Steel costs have steadily increased throughout the year beyond planned levels

## Proactive Management Actions

- Taking further actions to streamline TriMas
- Packaging: Entered into an agreement to sell property in Mexico City
- Energy: Assessing strategic options for our soft gasket manufacturing branch in Asia
