TRIMAS CORPORATION UPDATES 2014 GUIDANCE

BLOOMFIELD HILLS, Michigan, September 22, 2014 – TriMas Corporation (NASDAQ: TRS) – a diversified global manufacturer of engineered and applied products – announced today that it is lowering its full year 2014 guidance. Full year 2014 diluted earnings per share is now expected to be between \$1.85 and \$1.95, excluding any future events that may be considered Special Items. Previous full year 2014 guidance was an earnings per share of between \$2.15 and \$2.25.

The Company estimates that 2014 sales will increase 6% to 7% as compared to 2013. In addition, the Company has maintained its guidance of \$55 million to \$65 million of Free Cash Flow, defined as Cash Flow from Operating Activities less Capital Expenditures, in 2014.

“As previously indicated, we have faced both external market pressures and operational challenges in our Energy and Aerospace businesses to date in 2014,” said David Wathen, TriMas President and Chief Executive Officer. “While we have taken actions to improve the performance in these segments, the reality is that the improvements have not taken place at the expected pace. In addition, our Cequent businesses have faced and will continue to face additional margin pressures during the back half of 2014. We do not take lightly the need to adjust market expectations and continue to focus on capturing the opportunities and mitigating the risks we face in these choppy end markets. While we do see positive trends in certain businesses, these trends are expected to be more than offset by the recent headwinds. We are taking actions to effectively address these challenges and remain positive on the longer-term prospects for EPS growth in our business.”
