Non-GAAP Financial Measures

In this presentation, certain non-GAAP financial measures may be used. Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measure may be found in the Appendix at the end of this presentation or in the earnings releases available on the Company's website. Additional information is available at www.trimas.com under the "Investors" section.

Please see the Appendix for details regarding certain costs, expenses and other amounts or charges, collectively described as "Special Items," that are included in the determination of net income, earnings per share and/or cash flows from operating activities under GAAP, but that management believes should be separately considered when evaluating the quality of the Company's core operating results, given they may not reflect the ongoing activities of the business. Management believes that presenting these non-GAAP financial measures, by adjusting for Special Items, provides useful information to investors by helping them identify underlying trends in the Company's businesses and facilitating comparisons of performance with prior and future periods. These non-GAAP financial measures should be considered in addition to, and not as a replacement for or superior to, the comparable GAAP financial measures.

Q1 2025 Results

- Packaging and Aerospace sales growth more than offset the loss of sales related to Arrow Engine divestiture and lower demand within Specialty Products' end markets

- YoY Adjusted EBITDA ⁽¹⁾ and margin increased primarily due to higher sales and improved conversion within Aerospace
- Q1 Adjusted EPS ⁽²⁾ increased to \$0.46, or by 24.3% YoY, driven by higher operating profit

Note: All items are adjusted for Special Items. Please see the Appendix for a detailed reconciliation to GAAP results. Unaudited, dollars in millions, except per share amounts.

(1) Adjusted EBITDA is defined as net income (loss) plus expense (benefit) for interest, taxes, depreciation, amortization and non-cash stock compensation, all as adjusted for the impact of Special Items.

- Q1 Free Cash Flow as expected given seasonality, showing YOY improvement of \$14.8 million, driven by enhanced performance and disciplined working capital management

Note: All items are adjusted for Special Items. Please see the Appendix for a detailed reconciliation to GAAP results. Unaudited, dollars in millions.

(1) Net Leverage is defined as Net Debt/LTM Adjusted EBITDA.

(2) Free Cash Flow is defined as Net Cash Provided by/(Used for) Operating Activities, excluding the cash impact of Special Items, less capital expenditures.

Q1 2025 Segment Overview: Packaging

Adjusted for Special Items	Q1 2025	Q1 2024	LTM Q1 2025
Net Sales	\$127.6	\$127.0	\$512.9
Operating Profit	\$17.8	\$18.0	\$71.0

Adjusted EBITDA ⁽¹⁾	\$26.2	\$26.2	\$105.6
Adjusted EBITDA Margin	20.5%	20.7%	20.6%

Quarterly Takeaways

- Organic sales, adjusted for currency, were up 3.3%, driven by continued strong demand within the beauty & personal care, home care and industrial end markets, partially offset by lower demand for products used in food & beverage applications
- Margin was down slightly as improved operating performance was offset by freight charges resulting from a proactive decision to secure certain input products ahead of changing tariff rates
- Continuing to achieve commercial gains with larger CPG and life sciences customers through innovative product designs and processing approaches

Forward Perspective

- Managing through a dynamic tariff environment, taking near-term procurement and commercial actions, while assessing longer-term manufacturing footprint adjustments to mitigate exposures
- Accelerating the move to a new, larger manufacturing facility in Vietnam, which, together with the India location, will serve as foundational locations for Asia exports and future regional growth
- Continuing to explore bolt-on M&A opportunities with a priority in the beauty, food & beverage, and life sciences end markets

Q1 2025 Segment Overview: Aerospace

Adjusted for Special Items	Q1 2025	Q1 2024	LTM Q1 2025
Net Sales	\$89.2	\$67.3	\$316.1
Operating Profit	\$15.2	\$7.1	\$45.3
Operating Margin	17.1%	10.6%	14.3%
Adjusted EBITDA ⁽¹⁾	\$19.8	\$11.8	\$63.3
Adjusted EBITDA Margin	22.1%	17.4%	20.0%

Quarterly Takeaways

- YoY sales increased 32.5%, driven by improved output and commercial actions, as well as acquisition sales of 4.9%
- Operating profit margin improved by 650 basis points, driven primarily by operational excellence and commercial actions, with LTM EBITDA now reaching 20%, as anticipated
- Prioritizing incremental capital investments to accommodate growth in certain product lines and accelerate further operational improvements

Forward Perspective

- Strong order intake is expected to continue driving sales growth, with additional margin improvement compared to prior-year periods
- Completed the acquisition of GMT Aerospace – now TriMas Aerospace Germany (TAG) – in February 2025, establishing Aerospace's first European-based manufacturing facility to enhance support for global customers
- Closed a commercial multi-year agreement with Airbus, expanding the scope of fastener supply well into the future

Note: All items are adjusted for Special Items. Please see the Appendix for a detailed reconciliation to GAAP results. Unaudited, dollars in millions.

(1) Adjusted EBITDA is defined as net income (loss) plus expense (benefit) for interest, taxes, depreciation, amortization and non-cash stock compensation, all as adjusted for the impact of Special Items.

Q1 2025 Segment Overview: Specialty Products

Adjusted for Special Items	Q1 2025	Q1 2024	LTM Q1 2025
Net Sales	\$24.9	\$32.7	\$110.6
Operating Profit	\$0.1	\$2.6	\$3.8
Operating Margin	0.4%	8.0%	3.5%
Adjusted EBITDA ⁽¹⁾	\$0.9	\$3.6	\$7.7
Adjusted EBITDA Margin	3.7%	11.0%	7.0%

Quarterly Takeaways

- Lower sales related to the divestiture of Arrow Engine in January 2025 (~\$3.6 million impact) and reduced YOY sales demand within the Norris Cylinder business (~\$4.3 million impact), as anticipated
- YoY operating profit declined primarily due to the earnings loss related to the Arrow Engine divestiture, as well as lower absorption and higher inventory capitalized variances related to Norris Cylinder
- Norris Cylinder's restructuring actions are demonstrating improved performance on a lower sales base, when normalizing for inventory capitalization changes, which benefited Q1 2024 but negatively impacted Q1 2025

Forward Perspective

- Improving order intake, combined with prior cost restructuring actions, expected to accelerate Norris Cylinder's recovery and performance as we move through Q2 and into the second half of the year
- Managing through a dynamic tariff environment in which Norris Cylinder should benefit, given its United States manufacturing footprint and "Made in the USA" designation
- Collaborating with suppliers and customers to manage any material cost and indirect impacts from tariff actions

Note: All items are adjusted for Special Items. Please see the Appendix for a detailed reconciliation to GAAP results. Unaudited, dollars in millions.

(1) Adjusted EBITDA is defined as net income (loss) plus expense (benefit) for interest, taxes, depreciation, amortization and non-cash stock compensation, all as adjusted for the impact of Special Items.
